

Title: Web Designer/Developer

Location: Markham, ON (Hwy 7/Leslie – 15 – 20 minute bus ride on YRT 300 business express from Finch Subway Station)

Industry: Financial Services Software

Department: Technology

Company URL: <http://www.solidifi.com>

About Us

Solidifi is a leading provider of collateral valuation, risk management and data analytic services to the North American mortgage industry. Solidifi provides mortgage lenders and professionals with a flexible service platform for procuring collateral valuations from marketplace vendors and appraisers, with complete transparency and data to make “incredibly smart decisions”. Solidifi currently serves leading global financial institutions and operates Canada’s largest appraiser network. Solidifi is located in Toronto, ON and Chicago, IL.

Position Description

Reporting to the VP, Solutions Delivery, you will work with a world class Product and Technology team to design, define and refine the user experience throughout Solidifi’s product portal sites to achieve high impact, creative and user friendly interfaces.

Responsibilities

- Collaborate on design concepts, participate in design reviews and validate designs through testing.
- Work with and support Development, Marketing, Production, and QA teams by quickly providing solutions for usability bugs.
- Create user interfaces that work beautifully and intuitively.
- Create and iterate wireframes, workflows and mockups.
- Take mockups / comps and build production ready CSS driven pages to defined specifications incorporating cross browser rendering, performance and display issues.
- Keep abreast of emerging technologies and trends on the web.

Skill Required

- Experience with release and source control software (CVS, SVN)
- Experience with HTML, CSS, Javascript, JQuery and PHP
- Web 2.0 tools proficiency: AJAX, RSS, XML-RPC, Blogs, APIs and Mashups.
- Experience with mySQL or other databases.
- Hands-on experience in Linux/Unix environment.
- Experience incorporating user-centered design methodologies into your design process, including needs assessment, heuristic analysis, and iterative design.
- Experience working with high traffic sites.

- Experience building desktop widgets and/or web-based widgets.
- Proficient with hand coding table-less Web layouts using DIV tags.
- Mastery of web standards, design principles and scaleable dynamic GUIs.
- Well organized with clear, effective communication skills.

Education and Training Required

- BA/BS degree in Human-Computer Interaction, Web Design, Computer Science, Visual Communications or equivalent work experience.

The opportunity is here if you're ready for it: work with the industry's top talent on dynamic, challenging projects for the North American mortgage industry.

We take great pride in the work we do and the talented people who work with us. We're always looking for highly skilled, driven people who value a collaborative, open environment and a flexible, professional culture.

Please email your resume to careers@solidifi.com and be sure to include the position title "Web Developer" in the subject line of your message.

We thank you in advance for your interest and look forward to hearing from you.

Please note that only qualified candidates will be contact for this particular opportunity.
